

TRIPLE-RINSING PESTICIDE CONTAINERS

PROCEDURE:

- 1.) When the container is empty, let it drain into the mixing or spray tank for at least 30 seconds.
- 2.) Add the correct amount of water to the container as follows:

<u>Container Size</u>	<u>Rinse Solution Needed</u>
Less than 1 gallon	1/4 of the container volume
1 gallon	1 quart
5 gallons	1 gallon
30 to 55 gallons	5 gallons

- 3.) Close the container
- 4.) Shake the container or roll it to get the solution on all interior surfaces
- 5.) Drain the container into the mixing or spray tank. After it is empty, let it drain for an additional 30 seconds.
- 6.) Repeat steps 2 through 5 two additional times
- 7.) Puncture or crush empty containers and render them useless.
