

## **More Resources for Plant Problem Diagnosis**

To prevent many problems, we need to know our plant requirements. Here are a couple of good local resources:

[Library of Arizona Landscape Plants by ASU Professor Chris Martin](#)

Library of Arizona Landscape Plants by ASU Professor Chris Martin – this is an excellent resource for the landscape plants you will commonly come across in Arizona, regardless of their origins and cultural needs. Click on the landscape plant name for a photo.

<http://www.public.asu.edu/~camartin/Martin%20landscape%20plant%20library.htm>

[Landscape Plants for the Arizona Desert](#) by AMWUA - Arizona Municipal Water Users Association

The AMWUA index directs you to lower water use plants, and is a great tool to add to your mobile phone as a web-based app. <http://www.amwua.org/plants/>

**University of Arizona Cooperative Extension** – [Publication Library](https://extension.arizona.edu/pubs) <https://extension.arizona.edu/pubs>

Look up articles on nearly any Arizona landscape or garden problem, search by subject.

### **Maricopa County Cooperative Extension Office**

4341 E Broadway Rd

Phoenix, AZ 85040-8807

602-827-8200 press 2 for lawn and garden questions and then 5 for commercial landscaping questions and you will be directed to the correct extension agent to help with your questions.

**For Labs that conduct soil, plant tissue, feed or water testing** (call them first for their specific instructions):
