

Weed Germination Table

PRE-EMERGENT WEED CONTROL TREATMENT SCHEDULE FOR LANDSCAPE AND ORNAMENTAL SITES												
	Winter		Spring	Summer				Fall	Winter			
	January	February	March	April	May	June	July	August	September	October	November	December
Annual Grasses												
Foxtail												
Crabgrass												
Barnyard Grass												
Goosegrass												
Annual Blue (Poa annua)												
Wild oat												
Ryegrass												
Ripgut Bromegrass												
Perennial Grass												
Dallis												
Bermuda												
Johnsongrass												
Nutsedge												
Annual Broadleaf												
Cheeseweed												
Mustards												
Shepardspurse												
London Rocket												
Sowthistle												
Knotweed												
Lambsquarter												
Pigweed												
Puncture vine												
Common Groundsel												
Bittercress												
Common Purslane												
Spotted Spurge												
Common Chickweed												

Note: In a nursery and landscapes where environmental conditions are stable many species may be present all year
 Applications in late summer for control of fall and winter weeds is most desirable. An additional treatment in early spring can help to control spring and summer weeds
