

Water Conservation Specialist I:

This position is for **TWO** Water Resources Specialist I positions with the Town of Gilbert. The official posting can be accessed here: <https://www.governmentjobs.com/careers/gilbert/jobs/3643253/water-conservation-specialist-i>

Job Description Summary: Gilbert has an exciting opportunity for **TWO** Water Resources Specialist positions. We are seeking individuals who are innovative, driven, and passionate about water conservation. The Water Resources Specialist identifies causes of high-water consumption and customizes solutions to reduce water use. This position educates the public on where Gilbert water comes from, the importance of conservation, and tangible actions to save water. This position also maintains Gilbert's compliance with the Arizona Department of Water Resources.

Some of the Essential Duties and Responsibilities include:

- Performs outdoor water audits and provides assessments to explain and implement water conservation techniques and objectives for residential, commercial, homeowner's association, and reclaimed water users.
- Responds to citizen and water system customer inquiries, complaints, and information requests.
- Investigates high water-use complaints.
- Offers plant and landscaping recommendations for more efficient use of water and irrigations systems.
- Implements overall water use auditing methods.
- Monitors meters of high usage customers and coordinates conservation efforts.
- Reports meters working improperly or not at all.
- Develops and maintains water use reports, conservation, and educational monitoring and performance records and water use information files and databases.
- Works in a safe manner and reports unsafe activity and conditions. Follows Town-wide safety policy and practices and adheres to responsibilities concerning safety prevention, reporting and monitoring.
